

This comic was conceptualised during the workshop, 'Science, Story, and Pictures: A Beginners Guide to Communicating Your Science with Comics' at Entomology 2024. The prompt was to create a 4-panel comic describing a research project. I drew it digitally using *Procreate*.

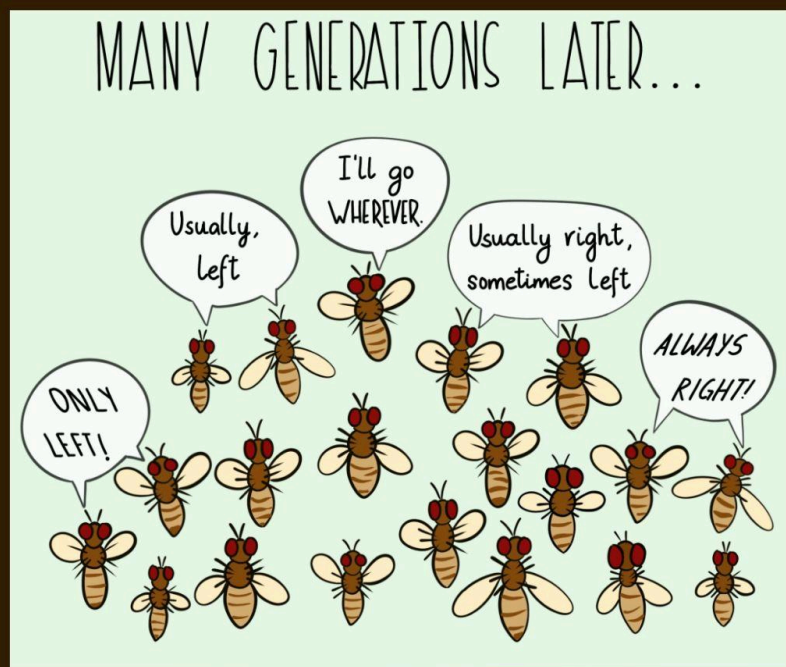

FRUIT FLIES HAVE PERSISTENT
BEHAVIORAL PREFERENCES

BUT WE DON'T KNOW HOW THIS
EVOLVES

WE TRIED TO SELECT FOR MORE
VARIABLE INDIVIDUALS

AND TURNS OUT, MORE VARIATION
CAN BE SELECTED FOR!
